

LE GILET DE L'ENSEMBLE DE BLEUETTE

Here is a vest that goes with the Ensemble and fits Bleuette's body. It is composed of a back and 2 front pieces. (I lined mine as you will see in photo). The fronts cross widely on each other and closes with 4 buttons.

RST sew shoulders of fabric and also of the lining.

Place right sides of fabric against right side of lining and stitch around the armholes and up the fronts and around the neck. Turn right side out by bringing the front pieces up inside and through the shoulder area to the back. Press, flatten out one side so you can sew up side seams from bottom of vest fabric right up the lining side. Bring lining back down inside and press. Turn the edges of the vest and lining up inside and hand stitch bottom closed with an over-cast stitch...or stitch of your choice..

Cross the right side of the front over the left and attach snaps and then sew 4 buttons on the front.
