DECEMBER

To make Betsy's calendar, get twelve white cards, 3 by 5 inches, a small printed calendar, paste, and half a yard of red satin ribbon. Cut out these pictures; then, with the narrow end of the card up, paste a picture on the top half. Draw a crayon frame around it. On the bottom half, paste the proper calendar page. Lastly, punch two holes in top of each card; thread the cards together with ribbon; and tie in a pretty bow. Happy New Year!
