Betsy McCall makes a calendar

SEPTEMBER

MARCH

OCTOBER

APRIL

BETSY found a wonderful way to start the new year. She made a 1958 calendar, using the 12 pictures around this page. Would you like to make one too?

Ask your mother to buy 12 unlined file cards and a small printed calendar for 1958 the next time she goes to the dime store.

Cut out the square pictures on this page—each one shows something that is fun for each month, like building a snowman in January or celebrating Mother's Day in May.

On each card paste a calendar page and the picture that goes with that month. When all the cards are made, punch two holes in the top of each one and tie the cards together with yarn or ribbon.
