It's easy to make this beautiful Betsy McCall Calendar, and the little drawing shows you how. You'll need 12 white, unlined 3-by-5-inch cards; a tube of library paste; a tiny printed 1973 calendar; half a yard of narrow red or green ribbon. Now cut out each of the above pictures

very carefully. Turn the card lengthwise, and paste a picture on it; below it, paste the calendar page for the month. When all are mounted and dry, make two holes at the top of each card. Run ribbon through the holes to hold cards together. Tie the ribbon ends in a bow.
