

# Betsy Visits An Inter-Galactic Space Station!

Dear Cousin Barbara,  
Daddy planned the most exciting vacation for us this year! We got to go to a real Space Station in his company rocket! I loved the trip, especially the asteroids but the twins were scared by the zooming lights. When we arrived, Daddy, Mama and the twins went to take a nap, but Nosey and I were full of energy! We went on a guided Space walk! I had to wear a Suit. We floated and dipped in space, sometimes upside down! Our Space Guide asked me if I'd like to really zoom! He strapped a portable rocket blaster to my back. I held Nosey tight and pushed GO. We took off like a comet! WOW!!! It was more fun than a Roller Coaster! I can't wait to do it again tomorrow! But Nosey won't try the rocket blaster!  
Tonight we're going to a Galactic ball! Ambassadors from all the Galaxies will be there. They're serving foods I've never heard of! I get to wear my sparkle gown and magnetic rings Aunt Helen brought when she visited Saturn last year. This is the best vacation ever!

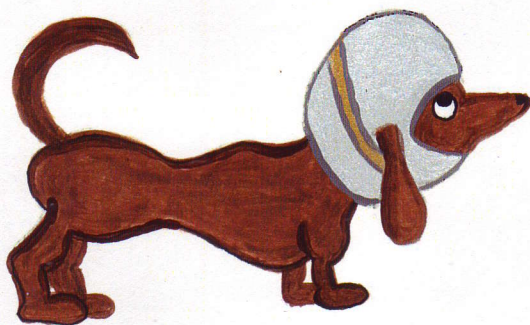

Love, BETSY

I love my Galactic gown and the Magnetic rings are just the right accessory!!

This is Betsy McCall

Even Nosey had to wear an Oxygen Helmet!
